

CULPEPER COLUMNS

The Original Laminated Timber Column

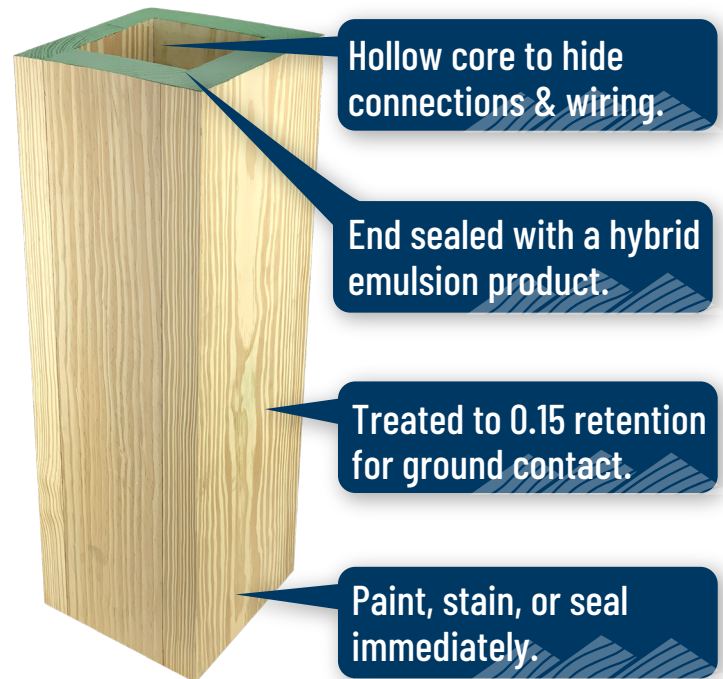

CULPEPER LAMINATED TIMBER COLUMNS have the handsome appearance of veneer-encased timbers without requiring extra construction time. They are treated for ground contact and can be used in place of fiberglass or aluminum columns for a substantial cost savings.

Traditional solid timber columns are prone to warping and cracking in a short period of time after installation. Laminated timber columns by Culpeper are lighter, easier to handle and much less likely to twist and crack than traditional solid columns. For unrivaled strength and beauty, a clean finish and no more need for wrapping with a veneer, look no further than the original laminated timber column from Culpeper.

BENEFITS OF THESE ATTRACTIVE, LONG-LASTING CULPEPER COLUMNS:

- Ready for immediate installation
- Paint, stain, or seal without delay
- Made from Southern Pine
- Sturdy & lightweight
- Limited warranty against damage from termites & fungal decay
- Greater load-carrying capacity than solid timbers
- Easier to install than solid timbers
- Less likely to twist
- Strength ratings outperform composite & PVC options
- Culpeper Columns are kiln dried after treatment. They must be primed and painted or stained immediately after installation.

Culpeper square laminated timber columns are available in cross sections from 4x4 to 12x12. They are also available in two different styles of turned posts in 5" and 6" sizes. For a complete list of dimensions and load specs, visit culpeperwood.com.
