

# CULPEPER PALMETTO PRIMED

**PALMETTO PRIMED TRIM BOARDS** are pressure treated trim boards that are pre-primed at the factory with a high quality, exterior, oil-based primer from Sherwin Williams, a leading manufacturer of coating products world wide.

## FEATURES OF PALMETTO PRIMED TRIM BOARDS:

- Run through our state of the art moulder to ensure a consistent thickness and width. This process creates slightly eased edges on all four corners for a pristine refined trim board.
- Clear grade of lumber on two edges and one face with no wane
- Pressure treated ground contact with MCA
- Kiln dried after treatment (KDAT)
- Pre-primed with a high quality exterior oil based primer from Sherwin Williams, encapsulating the boards on all six sides.

## IDEAL FOR:

- Exterior Trim & Fascia
- Garage Door Liners
- Rake/Frieze Board
- Corner Boards
- Bellyband
- Drip Edge

## BENEFITS OF PALMETTO PRIMED TRIM BOARDS:

**FUNCTIONAL** – available in multiple widths and lengths for all popular exterior uses. Lightweight and strong.

**NATURAL BEAUTY, BUILT TO LAST** – Solid wood remains one of the most attractive and cost effective exterior millwork choices for projects. Primed and preservative treated, PALMETTO PRIMED TRIM BOARDS will save builders time and money.

**COST EFFECTIVE** – Less costly than cedar, redwood, fiber cement or composite alternatives. Our trim boards offer a great appearance at an economical price.

**PLEASE NOTE: End cuts MUST be coated with a primer prior to installation to maintain the lifetime warranty of your Palmetto Primed Trim Boards.**
