

PRODIGY

NO PRIMER NEEDED

THE ULTIMATE DECK BOARD

To make Culpeper Prodigy, we use Culpeper Clear and add relief cuts that run the entire length of the underside of the board. This unique profile reduces cupping, warping, and splitting, making Prodigy Culpeper's Ultimate Deck Board. If you want real wood at a fraction of the cost of composite decking, choose Culpeper Prodigy.

PRESSURE TREATED

Resistant to rot, insects, and harsh weather, making it ideal for outdoor and structural projects.

CLEAR GRADE LUMBER

The highest available grade of lumber with minimal knots and wane and is denser in nature.

1/4" RADIUS EDGE

Rounded edges are less prone to chipping, cracking, or splitting, which extends the lifespan of the board.

RELIEF CUTS

Allows the board to expand and contract more evenly as it responds to changes in moisture and temperature.
