

Armadillo Decking Care & Cleaning Guide

Armadillo Decking is a low maintenance product that requires cleaning at least 2 times a year. These periodic cleanings will help to maintain the appearance of the deck boards.

Problem

Recommended Solution

Dirt & Debris	Spray the affected area with a water hose to remove dirt from surface. Use warm soapy water made with mild dishwashing detergent and a soft sponge/rag to remove any dirt buildup. Thoroughly rinse off with garden hose when complete.
Oil & Grease	All oil & grease spills should be cleaned up as quickly as possible. Use warm soapy water made with mild dishwashing detergent and a soft sponge/rag to remove any oil or grease. Thoroughly rinse off with garden hose when complete. The deck surface must be cleaned within 1 week to maintain the stain portion of the warranty.
Mold & Mildew	Mold & mildew are commonly found on outdoor building materials. To prevent pollen and debris buildup, periodic cleaning is best. If mold/mildew is present, use warm soapy water made with mild dishwashing detergent and a soft sponge/rag to remove. Thoroughly rinse off with a garden hose when complete.
Ice & Snow	Apply calcium chloride or rock salt if needed. Be sure to thoroughly rinse off deck surface later on to avoid residue build up. A plastic shovel may be used; Never use a metal shovel or sharp edged tools to remove snow and ice.

*The use of products containing bleach or similar chemicals may lighten the appearance of Armadillo Decking. If desired, try in an inconspicuous area to determine whether you like the final result.
